

# WATERCOLOUR SUPPLY LIST

The instructor highly recommends using professional quality supplies- it makes a big difference. Although she likes to work with what you already have, please make sure to have Arches 140 lb cold press paper (not hot pressed) and consider the colours and brushes as a guideline only.

## Paint

Please bring professional quality paint brands. The brands I use are Winsor & Newton, Holbein or Davinci. For beginners who don't want to invest in a lot of paints, you can purchase the 12 colour set of Yarka paints.
